

### YEAR 1

#### **Fall semester**

- General Chemistry I
- Intro to Molecular and Cellular Biology or Intro to Ecology and Evolutionary Biology

#### **Recommended courses**

- First-Year Experience
- College Writing I
- Calculus I
- Principles of Macroeconomics

#### **Spring semester**

- Intro to Organismal Biology or Genetics
- Anatomy and Physiology or Microbiology
- General Chemistry II
- Intro to Careers in Health Sciences

#### **Recommended courses**

- Calculus II
- Speech Communication
- Lifetime Fitness and Wellness

### YEAR 2

#### **Fall semester**

- Organic Chemistry I
- Intro to Molecular and Cellular Biology or Intro to Ecology and Evolutionary Biology
- College Physics I
- Elementary Statistics

#### **Recommended courses**

- Biblical Literature
- humanities course
- intercultural competence course

#### **Spring semester**

- Intro to Organismal Biology or Genetics
- Anatomy and Physiology or Microbiology
- Organic Chemistry II

Recommendations: College Physics may be needed but also can be taken during the student's junior year. For pre-pharmacy, include Anatomy and Physiology instead of Organismal Biology.
